FOREWORD.

The offerings in this catalogue will be found to differ materially in character and arrangement from those sold in former sales.

The **Paper Money**, **Gems**, and **Coins** are of a better quality than those offered before, while the **Old Newspapers** cover a much wider period, including many of the French & Indian War, and the opening of the American Revolution, with special references to the siege of Boston, the Arnold expedition against Quebec and the surrender of Lord Cornwallis. Of significance is the lengthy official signed account of the Yorktown surrender, by Cornwallis himself, together with some interesting letters from Arnold to his superiors after he had gone over to the British. Important news of the French Revolution is graphically told, including the first news of the **Battle of Waterloo** and defeat of Napoleon. **The New York Mirror** volumes, 1829-42, should be of interest to New Yorkers, it being particularly strong in original poems of William Cullen Bryant, J. G. Whittier, O. W. Holmes, N. P. Willis, Mrs. Sigourney and other lights.

There are coins in all metals, and of all periods, from all countries in the world.

The Phoenician and Greek glass is in very fine preservation and well designed.

Taken altogether this is an unusual assemblage of a widely varied character, which cannot fail to interest a large class of readers and collectors.

One session only will be held.
